

NOT FOR CONSUMER USE

SILI-MER G5

BIOAVAILABLE ORGANIC SILICA

Monomethyl silanetriol

Highest absorption of silica sources tested

Sili-Mer is **amphiphilic** - it can dissolve in both water and lipids.

- Can travel through the bloodstream via water
- Can cross through lipid layers of cell membranes

*WHY IS SILICA IMPORTANT?

- Beneficial for the bones, brain and blood vessel
- A component of connective and elastic tissue
- Reduced silica in the body results in a deterioration of elastic tissue (skin) and quality of connective tissue
- Contributes to the formation of cartilage and bone
- Stimulates collagen synthesis

*Studies confirm benefits in:

- ✓ Cardiovascular health
- ✓ Skin, Hair & Nail health
- ✓ Cartilage and joint health
- ✓ Bone and tooth health
- ✓ Detox (protects from aluminum)

Medicinal Ingredients:

Quantity per dose (15 ml): Silica 0.02 mg
(equivalent to 3 mg of Methylsilanetriol)

Non-medicinal Ingredients: Water, sodium benzoate, potassium sorbate.

**Suggested use: 1 tbsp 1-3 x daily
5-10 mins before a meal**

* Health claims are based on ingredient research studies – not on product itself.
